About Us

Sale| Purchase |Rental

Sun Power Company is a reliable and customer-focused organization delivering complete power backup and energy solutions for a wide range of applications. We are engaged in the sale, purchase, rental, installation, and maintenance of generator sets, ensuring smooth and uninterrupted operations for businesses and institutions. Our expertise also extends to electrical and AMF panels, servo stabilizers, inverters, batteries, and solar power systems tailored to meet varying load requirements. Backed by experienced professionals and trained technicians, we emphasize safety, efficiency, and long-term performance in every project we undertake.

We believe in providing quality products, prompt service support, and practical solutions that reduce downtime and improve productivity. Our commitment to transparent communication and dependable after-sales service has helped us build strong, lasting relationships with clients. At Sun Power Company, we continuously upgrade our knowledge and capabilities to deliver modern, cost-effective, and energy-efficient solutions that customers can trust.

Powering progress with commitment and care, we deliver reliable energy solutions that keep businesses moving forward. Trust, quality, and service excellence drive us to perform better every day.

Vision & Mission

Vision

Our vision is to be recognized as a leading and most dependable provider of power backup and energy management solutions across industries. We aspire to set new benchmarks in quality, service excellence, and technological advancement. By continuously improving our capabilities and embracing innovation, we aim to deliver efficient, sustainable, and future-ready solutions that empower businesses and communities. We seek to build strong, long-term relationships with our clients through trust, transparency, and consistent performance, becoming their preferred partner for reliable power infrastructure.

Mission

Our mission is to deliver superior products and comprehensive services that ensure uninterrupted operations for our customers. We are committed to understanding unique power requirements and providing customized, cost-effective, and safe solutions. With a focus on skilled manpower, timely response, and modern practices, we work to minimize downtime and maximize productivity. Through continuous training, ethical business conduct, and dedication to customer satisfaction, we strive to create lasting value and exceed expectations at every stage of engagement.

Core Values

Our operations are guided by principles that define who we are and how we serve our customers. We believe in integrity, transparency, and accountability in every commitment we make. Quality and safety remain at the center of our work, ensuring reliable performance and long-term trust. We value teamwork, continuous learning, and innovation, enabling us to adapt to changing technologies and customer expectations. By putting clients first, we aim to deliver solutions that create real and measurable value.

Why Choose Us

Sale| Purchase |Rental

We are committed to powering your operations with dependable solutions and responsive service. Our team combines technical knowledge with practical experience to recommend the right systems for every requirement. We manage everything from supply and installation to testing and long-term maintenance, ensuring hassle-free performance. By focusing on quality equipment, timely execution, and clear communication, we help clients achieve reliability and peace of mind. Our flexible approach, competitive pricing, and strong after-sales support make us a trusted choice for organizations seeking efficient, durable, and professionally managed power backup solutions.

Our success is built on strong teamwork and collaboration across every level of our organization. Engineers, technicians, and support staff work together with clear communication and shared responsibility to deliver reliable power solutions. By combining skills, experience, and mutual respect, we complete projects efficiently and maintain high service standards. Our team-driven culture enables faster problem-solving, better coordination, and consistent results that customers can depend on. **24/7 door to door service**

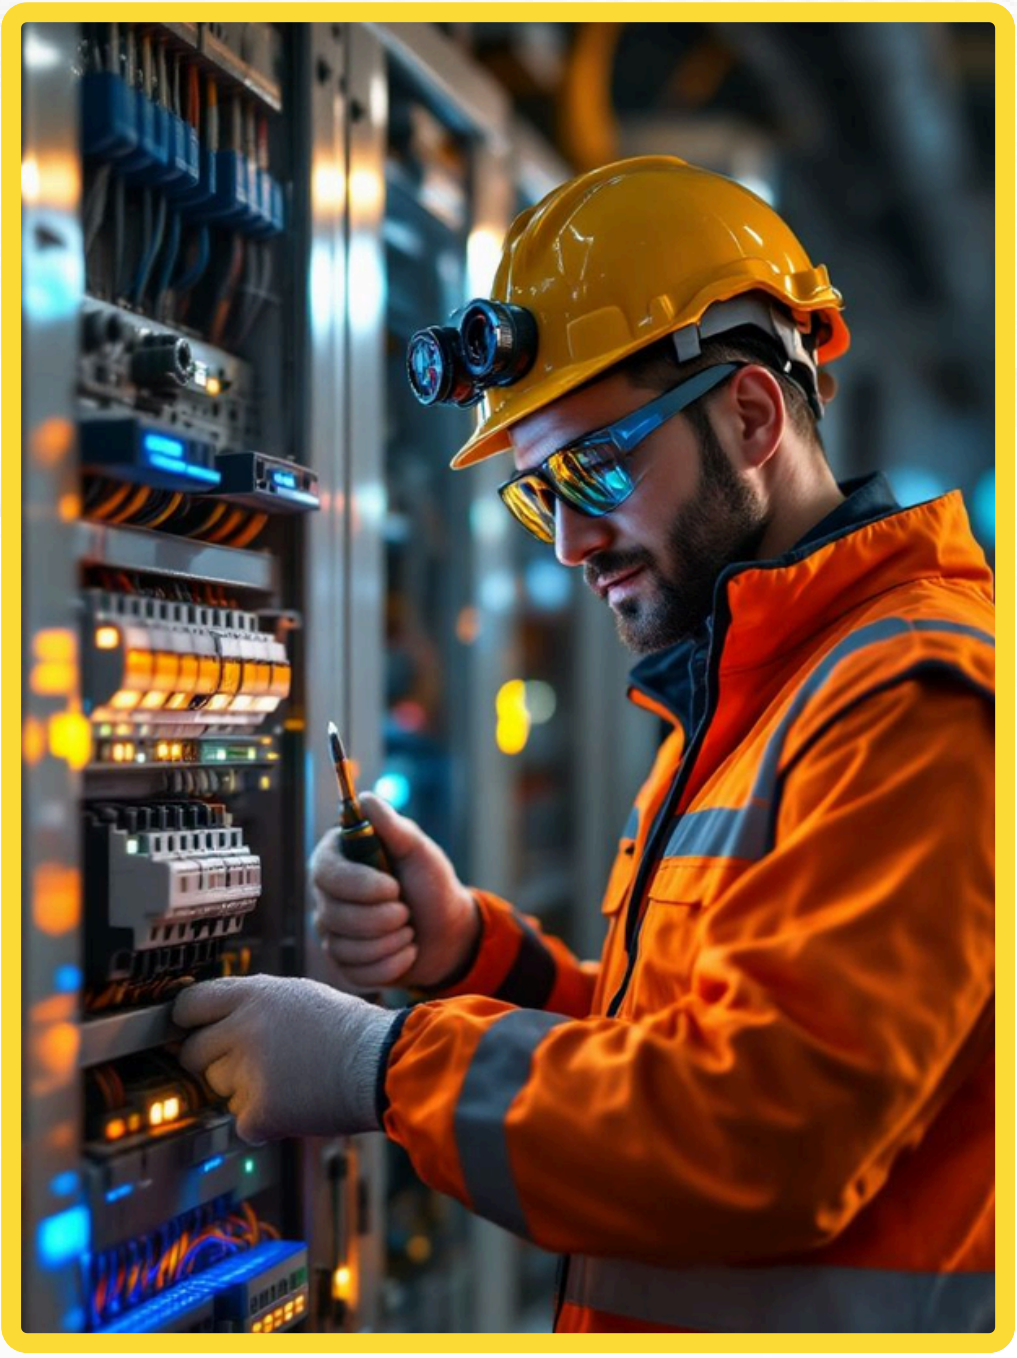

What We Do

Sale| Purchase |Rental

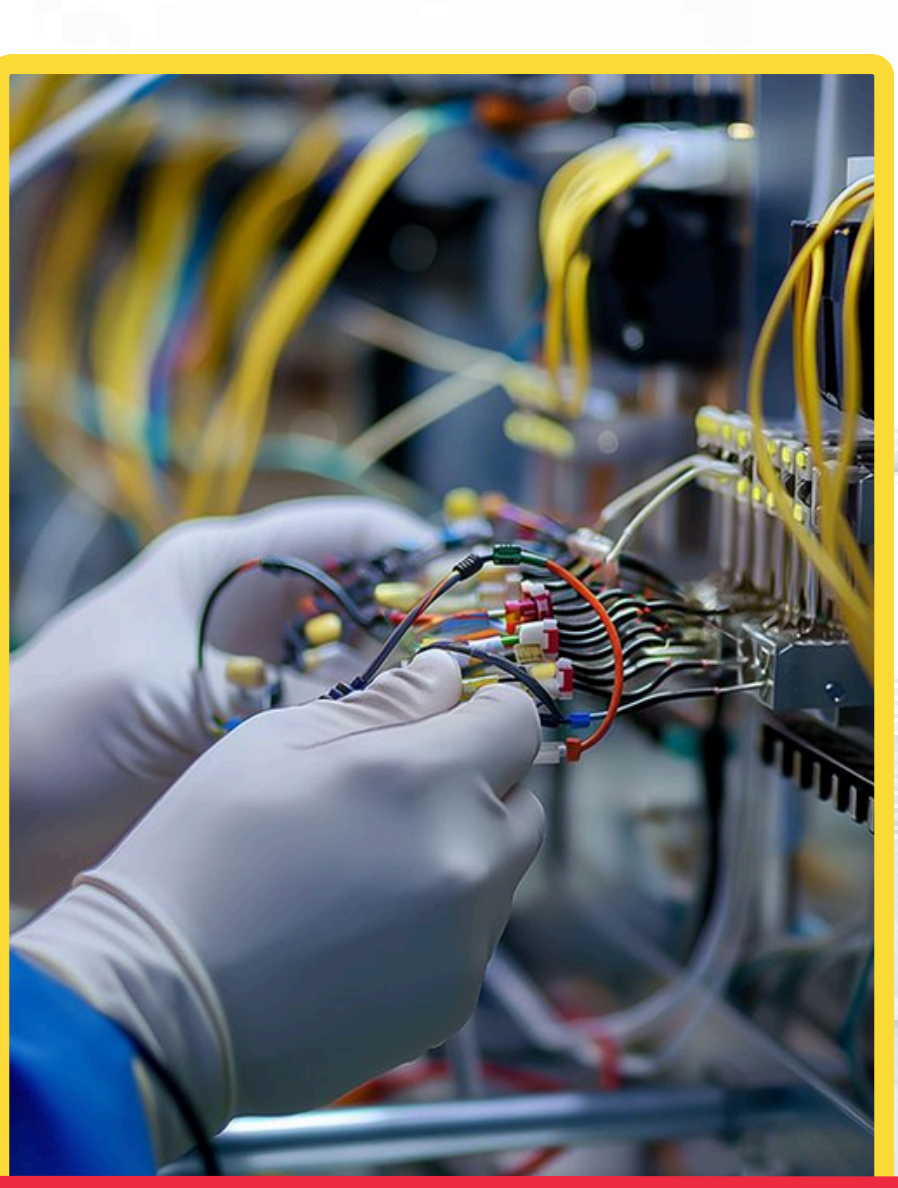

We provide complete power backup and energy management solutions for commercial, industrial, and residential needs. Our work includes generator sales and purchase, rental services, installation, testing, and preventive maintenance. We supply and integrate electrical panels, AMF systems, servo stabilizers, inverters, batteries, and solar power solutions designed for reliable and efficient performance. From consultation to after-sales support, we focus on delivering the right equipment, timely service, and dependable operations so our clients can run without interruption.

Experience & Expertise

With years of hands-on industry experience, we have developed strong technical knowledge in delivering dependable power solutions across diverse environments. Our team of qualified engineers and trained technicians understands system design, load requirements, installation standards, and long-term equipment performance.

We handle everything from generator deployment and electrical panels to advanced backup and solar integrations with precision and professionalism. Our expertise allows us to quickly diagnose issues, minimize downtime, and recommend cost-effective solutions tailored to each client. Continuous training and practical exposure to modern technologies keep us prepared to meet evolving energy demands with confidence and efficiency.

Industries We Serve

Sale| Purchase |Rental

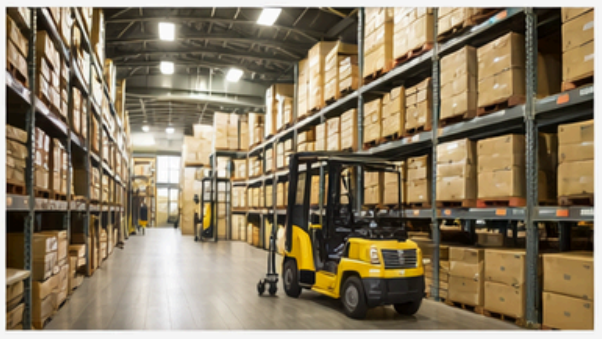

We provide dependable power backup and energy solutions to a diverse range of industries where uninterrupted electricity is essential. Our clients include corporate offices, manufacturing facilities, warehouses, healthcare centers, educational institutions, residential communities, retail outlets, and infrastructure projects. Each sector has unique operational demands, and we carefully evaluate load requirements, safety standards, and performance expectations before recommending the right equipment. From generator systems and control panels to inverters and solar solutions, we ensure smooth integration and long-term reliability. Our industry-focused approach helps organizations minimize downtime, improve efficiency, and maintain continuous operations with complete confidence.

Quality Policy

We are committed to delivering products and services that consistently meet customer expectations and industry standards. Our focus is on reliability, safety, and performance in every generator, panel, and energy solution we provide. We follow systematic processes, use trusted components, and ensure every installation and service activity is carried out by trained professionals. Continuous improvement, timely support, and transparent communication help us maintain high levels of customer satisfaction. Our goal is to build long-term partnerships by providing dependable, efficient, and cost-effective power solutions without compromise.

Our Services

Sale| Purchase |Rental

Sale, Purchase, & Rental services

We provide generator sale, purchase, and rental services designed to suit varying power demands across industries and commercial sites. With ready availability, well-maintained equipment, and prompt assistance, we ensure dependable performance, operational flexibility, and cost-effective solutions that keep your business running without interruption.

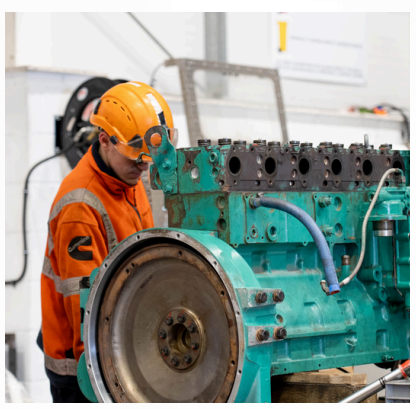

Repair & Maintenance Services

We deliver expert repair and maintenance services to ensure your power systems operate at peak efficiency. Our skilled technicians handle inspections, troubleshooting, preventive care, and breakdown support, reducing downtime and extending equipment life while maintaining safety, reliability, and consistent performance.

Servo Stabilizer Supply

We supply high-performance servo stabilizers designed to maintain consistent voltage levels and protect equipment from fluctuations. Our solutions improve efficiency, enhance safety, and extend machinery life, making them ideal for industrial, commercial, and sensitive electrical applications requiring stable and reliable power.

Our Services

Sale| Purchase |Rental

LT & Distribution Panels

We provide robust LT and distribution panels engineered for safe and efficient power management. Designed for reliability and easy operation, our panels ensure proper load distribution, system protection, and smooth performance across industrial, commercial, and infrastructure applications.

Inverter & Battery Solutions

We offer reliable inverter and battery solutions that ensure uninterrupted backup during power failures. Designed for efficiency and durability, our systems provide stable output, fast charging, and long service life for residential, commercial, and industrial applications.

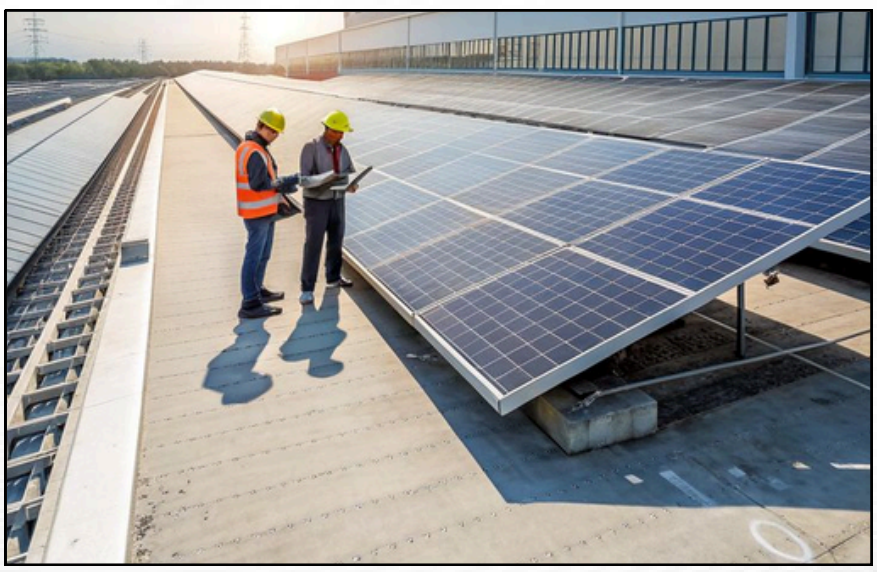

Solar Power Systems

We deliver advanced solar power systems that help reduce energy costs and promote sustainable operations. From design and supply to installation and support, our solutions provide efficient generation, reliable performance, and long-term savings for residential, commercial, and industrial users.

Products Detail

Sale| Purchase |Rental

We offer a comprehensive range of power products to meet diverse energy requirements. Our portfolio includes generator sets from 7 kVA to 1000 kVA from leading brands such as Eicher, Mahindra, and Cummins. We also provide AMF and distribution panels, genuine spare parts, solar panels, and inverter with battery solutions suitable for residential, commercial, and industrial applications. Each product is selected for reliability, efficiency, and long-term performance, ensuring dependable operation and customer satisfaction.

S. No.	Product / Category	Details
1	Generator Sets (Gensets)	All types available from 7 kVA to 1000 kVA (Eicher, Mahindra, Cummins)
2	Electrical Panels & Servo	AMF panels and power distribution panels
3	Spare Parts	Wide range of genuine spare parts available
4	Solar Systems	Solar panels and related equipment
5	Inverter & Batteries	Inverters and batteries for various applications
